

# IDEA BOOK

MODULAR AND CUSTOM EXHIBIT SOLUTIONS

### Crown Molding

Finish off any pillow case box shape with our crown molding for a tight, architectural look.

### Dimensional Logos

Dimensional logos have never been easier. Each component just clicks into place - ask about our LED edge lighting for more POP!!!

### Klik™ Accessories

This is where Klik™ shines! Use our accessories to display and promote your products and services. Interchange as necessary.

### Side Walls

We use Klik™ for much more than sticking things to the surface - we connect walls to each other eliminating the need for bolts and hard-to-reach zippers.

### Artwork

Framed artwork or just printed sintra - you can organize an eye-catching grid that adds that home decor look to any wall.

### Kickplates

Much like our crown molding these kickplates give any box shape a tight, finished look.

### Klik™ Magic Podium

This podium ships with the graphic attached and you simply just lift it in place!

ITEM# 001-18

## Hanging Elements

Custom hanging elements are a great way to be seen from across the hall or convention center.

## Custom Light Solutions

Everyone knows how critical lighting is to a good booth. Designer lighting is always available.

ITEM# 002-18

## Klik™ Throughout

Our Klik™ technology is used throughout the booth with different accessories as well as how the booth assembles. We've made it super easy to reconfigure.

ITEM# 003-18

## Modular

When you don't need a 20x20 booth - just use the components that make sense for the show you're attending. This booth breaks down into several configurations!

ITEM# 004-18

### Design with Traffic in Mind

A great booth layout allows for a variety of way to interact with your customers. Access from multiple sides with several areas for conversation help make the booth more inviting and functional.

ITEM# 006-18

### Modular by Design

This booth was designed to work in a variety of settings and booth spaces. Many components are shared between a 20x20, 10x20 and 10x10 space. Use only what you need for the specific show you're attending.

ITEM# 005-18

## Klik™ Connections

Instead of bolts, holes and zippers - we use our Klik™ Technology to attach walls together. This dramatically speeds up the setup process.

## Temporary Storage or Dressing Rooms

This innovative drape system allows you to create additional storage for your booth or even a dressing room. Attached using our Klik™ Technology - use it if you need it or remove it when you don't.

## Klik™ Accessories

When you embed our Klik™ System into your booth you have the ability to use any of our standard Klik™ Accessories. There are no holes in the fabric and you can swap them out or not use them at all - based upon what you need at any given show.

## Printed Carpet

Our dye sub printed carpets create a very unique booth space. There are unlimited possibilities because we can print anything you design.

ITEM# 007-18

## Modular by Design

The storage/dressing room is designed to be modular so that when you only need a 10x10 space you can still utilize this component.

## Keep It Simple - You Decide

Modular booth design helps you manage your different spaces throughout the year. Use what you need and leave the stuff you don't at home.

ITEM# 008-18

ITEM# 009-18

## Connectors

Place a connector over the seam from one 10x10 wall to another when you need a 10x20.

## TV Mounts

We can add TV mounts to just about everything we do!

## Storage Areas

If you need storage space we can design it into your booth - just ask!

## Doors

If you need something to be a bit more secure - we can add doors to storage areas. They are covered in tension fabric and blend great with your booth design.

ITEM# 010-18

## Modular

When you don't need a 10x20 booth - just use the components that make sense for the show you're attending. This booth breaks down into 2 different configurations!

## Klik™ Throughout

Our Klik™ technology is used throughout the booth with different accessories as well as how the booth assembles. We've made it super easy to reconfigure.
